

# Stopping a Global Pandemic Without Water?

## *How WASH is a Neglected Critical Element of Health Security*

### A Virtual UN General Assembly Side Event

Global health security efforts must integrate WASH; failure to do so will result in substantial weakness in the preparedness of healthcare facilities to prevent epidemics. Join us for a discussion on how to address WASH gaps and how to prioritize and invest in these solutions.

**Thursday, September 24, 2020**

**8:30AM EDT | 12:30PM GMT | 3:30PM EAT**
